

President's Message

Every year since we opened our doors, we've returned 100% of our profits to the four Atlantic provinces; 100%. Every year. Money that's used to make Atlantic Canada a better place for all of us and a fact that makes working here so special.

We are coming off a strong year with three of our business lines, Scratch, PRO•LINE Sports and our Internet operations at alc.ca recording all-time record sales. Thanks to a roster of great products and an exceptional team, we returned nearly \$363 million in profit in 2012/13; dollars which will help build schools, roads and hospitals in communities across Atlantic Canada.

We've also awarded more than \$367 million in prizes to Atlantic Canadians.

In fact, we've been pretty successful in the lottery business for nearly 37 years providing safe and responsible games for those who choose to play.

We want to continue that success.

To do that, we need to be offering games our players want, when they want and where they want.

That means new and innovative thinking, new products and a business approach that reflects our competitive reality.

Make no mistake – our products are still popular, as shown by our recordbreaking sales, but with increasing unregulated global competition, and younger generations going elsewhere for interactive, entertaining and social games, our player base, player safety and profits are at risk.

So, change is necessary, desirable and in the public interest.

Productive change means looking at new possibilities and new ways of conducting our business; it means new products in new channels right here at home.

It means 'exporting' our recognized industry-expertise around the globe. It also means partnering with, and sourcing unique skills from other companies, many from Atlantic Canada, who can help us become more competitive.

Much of the work we've accomplished this year was aimed at setting the stage. While the way Atlantic Lottery operates may change, one element remains true and strong and that is our commitment to delivering lottery products with the highest standard of player protection and safety. That will never change. National and international accreditations, like the World Lotteries Association Responsible Gambling certification, continue to recognize our expertise in this area. We are proud Atlantic Canadians. We want Atlantic Canadians to be proud of us for what we do, and as importantly, how we do it.

I invite you to take a few minutes and have a look around. Find out what we're doing to ensure that our players have a safe and fun experience, and how we're adjusting our business to ensure our profits continue to make Atlantic Canada a better place.

Chair

Board (I-r) C. Sean O'Connor, Board Chair Kevin Breen Gordon Gillis Jane Garbutt Wallace Floyd Patricia J. Mella Doug Clow Stephen Mont Laurie Skinner

Message from the Board Chair

As Chair of the Board, I'm pleased to present Atlantic Lottery's 2012/13 Accountability Report on behalf of the Board of Directors. The Report highlights Atlantic Lottery's recent successes and touches on their plans to ensure continued success in the new global gambling landscape.

Atlantic Canadians can feel good knowing that every Atlantic Lottery product and experience is designed with player safety and protection standards recognized among the best in the world. The Board has a responsibility to ensure that Atlantic Lottery continues to deliver with the highest levels of integrity, accountability and transparency. The Board also advises on matters related to human resources, risk management, budgeting and strategic planning. Acting as liaisons with the government shareholders, the Board both advocates and promotes understanding of Atlantic Lottery's business decisions and plans.

Atlantic Canadians have long benefitted from Atlantic Lottery's efforts to deliver fun, entertaining and responsible lottery products. Since 1976, nearly \$7.8 billion – 100% of Atlantic Lottery's profit – has helped support essential services in Atlantic Canada such as hospitals, roads and schools.

This year alone they've delivered nearly \$363 million in profit, thanks to record sales in PRO•LINE Sports, Scratch'N Win tickets and on alc.ca. It's a point of pride for more than 600 Atlantic Lottery employees who also call Atlantic Canada home.

You don't have to be in the gambling industry to recognize the gambling experience has changed in recent years. With digital technology, the world is at our fingertips. Atlantic Canadians can access more than 2,500 unregulated gambling options 24-7. What players expect is changing too. Today they want more options, more often, different play experiences, and access at their fingertips. While Atlantic Lottery has a loyal player base, demographics are shifting and younger generations of players are going elsewhere for their play experiences.

For Atlantic Lottery to remain competitive, attract players and continue to deliver profits, a shift in the business model is required. With this new strategy, Atlantic Canadians can still look forward to playing their traditional favourites, but they can also expect new options more aligned with their lifestyle and habits. The strategy contemplates partnering with like-minded companies with worldcalibre talent capable of delivering competitive edge and efficiencies. Likewise, it outlines a plan for potentially exporting expertise to other jurisdictions.

Every element of the strategy is necessary to meet the challenges, stay competitive and continue delivering profits back to Atlantic Canadians. By adjusting the manner in which they operate, Atlantic Lottery is positioning itself for continued success.

The Board supports the company's efforts to remain a key contributor to the Atlantic Canadian economy. It is the right thing for Atlantic Canada and Atlantic Canadians.
