OPPOSITION MEMBERS' MOTIONS

Debatable Motions

Motion 26 by Mr. MacDonald, seconded by Mr. Northrup to propose the following resolution on Thursday, December 18, 2008:

WHEREAS New Brunswick's forest industry is undergoing unprecedented changes and hardships; and

WHEREAS these hardships are being felt by thousands of New Brunswickers including the 40,000 woodlot-owning families; and

WHEREAS the seven regional woodlot marketing boards and the Federation of Woodlot Owners are also being negatively impacted by the economic crisis facing the industry; and

WHEREAS these eight organizations provide considerable support and services to the industry, including silviculture, certification, education and training, market development, forest management, administration of government programs, non-timber forest products, woodlot owner rights, and day-to-day inquiries; and

WHEREAS in 2007, the Self-Sufficiency Task Force recommended that the Government should "*support private woodlot marketing boards in strengthening their role with respect to silviculture, certification, education and market development,*" and that said recommendation should be acted upon within one year; and

WHEREAS in January 2008, the Government of Canada provided the Government of New Brunswick with \$30 million through the Community Development Trust; and

WHEREAS the province and the forestry industry would benefit from having strong private woodlot marketing boards and a strong federation; therefore

BE IT RESOLVED that this Legislative Assembly urge the government to consider the advisability of providing a one per cent per acre tax sharing on the private woodlot land base to the Federation of Woodlot Owners and another one cent per acre tax sharing on the private woodlot land base to the regional marketing boards as a source of sustainable funding; and, that said tax sharing, if implemented, remain in place for a period of three years.

[Debate interrupted due to expiration of time.]

Motion 54 by Mr. Alward, seconded by Mr. Fitch to propose the following resolution on Thursday, April 23, 2009:

WHEREAS economies across Canada have been in a state of decline during recent months and local, provincial and federal governments have been searching for tools to infuse money into regions to generate more stable financial markets; and

WHEREAS the province of New Brunswick is currently facing an extremely difficult financial position with yearly deficits increasing and the provincial net debt growing at an unsustainable rate that will have negative impacts on the province's finances for decades and generations to come; and

WHEREAS research and development funds must be a key component to revitalizing the New Brunswick economy by investing money in education, technology, infrastructure, and industry; and

WHEREAS New Brunswick currently ranks as one of the lowest amongst all Canadian Provinces for investments in research and development from federal, provincial, business, non-profit organizations, higher education, and foreign investment sectors; therefore

BE IT RESOLVED that this Legislative Assembly urge the government to seek out every available resource for increased funding including new federal, provincial, and private industry funds so that this vital component of our economy can help New Brunswickers and our businesses revitalize our provincial economy in order to return this province to one of job creation, prosperity, and a leader in technology, research and development of world class products and services.

[Debate interrupted due to expiration of time.]

Motion 59 by Mr. Jack Carr, seconded by Mrs. Blaney to propose the following resolution on Thursday, May 21, 2009:

WHEREAS ambulance service is a vital and integral aspect of our provincially delivered and operated healthcare system; and

WHEREAS the government chose to consolidate ambulance services into one public sector company; and

WHEREAS Ambulance New Brunswick was designed to better deliver ambulance service to the people of New Brunswick and serves now as a critical component of our healthcare system; and

WHEREAS it has become apparent that there are issues surrounding deployment, proper global positioning systems, up to date road condition information, resources including the number of vehicles and paramedics in the system; and

WHEREAS our publicly delivered healthcare system should not discriminate against a person's ability to pay for services during an emergency situation or for medically necessary transportation from one place to another; therefore

BE IT RESOLVED that this Legislative Assembly unanimously urge the government to reconsider the \$130 ambulance user fee so that all New Brunswickers may continue to utilize this essential emergency service free of charge; and

BE IT FURTHER RESOLVED that outstanding issues related to deployment, global positioning systems, up to date road condition information and all available resources be resolved immediately so that New Brunswick's paramedics can do their jobs.

Motion 60 by Ms. Dubé, seconded by Mr. Olscamp to propose the following resolution on Thursday, May 21, 2009:

WHEREAS mental illness costs the Canadian economy \$14 billion a year;

WHEREAS mental illness, like physical illness, can take various forms, including affective disorders, eating disorders, suicide, schizophrenia, schizoaffective disorders, obsessive-compulsive disorders, anxiety disorders, personality disorders, alcoholism and addiction, and post-traumatic stress disorder;

WHEREAS 20% of residents will experience mental illness at some point in their lives and the remaining 80% will be affected by the illness of a close relative, a friend, or a colleague;

WHEREAS depression is expected to be one of the leading causes of disability worldwide by 2020 and suicide is one of the 10 leading causes of death in Canada;

WHEREAS discrimination and stigmatization cause people experiencing mental illness and addiction as much distress as the actual disorder;

WHEREAS early detection and intervention in the area of mental health and addiction should also be considered from a general public health perspective, since, like physical health, prevention is crucial to ensuring an individual's general wellness;

BE IT THEREFORE RESOLVED that the Legislative Assembly urge the government to pool all resources in order to ensure better coordination between health professionals, social workers, patients, and families, including striking a committee of deputy ministers who will meet monthly;

BE IT FURTHER RESOLVED that the Legislative Assembly urge the government to provide more resources, health workers, and social workers to work with people with mental illness and their families;

AND BE IT FURTHER RESOLVED that the Legislative Assembly urge the Minister of Health, the Minister of Social Development, the Minister of Education, and the Minister of Post-Secondary Education, Training and Labour to work on awareness campaigns aimed at various target markets: teenagers, employers, Aboriginals, and the general public.
