Motion 8 by Mr. Doucet, seconded by Mr. Collins to propose the following resolution on Thursday, November 21, 2013:

WHEREAS all Canadians owe a debt of gratitude to our armed forces for their sacrifices on our behalf; and

WHEREAS armed forces personnel have been injured in the line of duty on behalf of our country; and

WHEREAS federal government policy requires armed forces personnel to be ready to be deployed overseas for the entire ten years of their service to qualify for a pension; and

WHEREAS injuries prevent many of these armed forces personnel from being ready to be deployed overseas thereby disqualifying these brave men and women from a pension; and

WHEREAS successive Ministers of National Defense have recognized that this policy is unfair and have pledged to address the problem; and

WHEREAS the problem has still not been addressed;

BE IT THEREFORE RESOLVED that the Legislature of New Brunswick unanimously condemn that current policy and urge the federal government to make provision for armed forces personnel injured in the line of duty to be allowed to remain in the service for their full ten years to qualify for their pensions.

WHEREAS the Premier has not brought forward a comprehensive economic development strategy for the province;

WHEREAS Statistics Canada figures reveal that nearly all New Brunswick economic indicators are well below the national average;

BE IT THEREFORE RESOLVED that the Legislative Assembly condemn this government for its lack of results in growing the economy, tackling unemployment, and creating jobs.

[Debate interrupted due to expiration of time]

Motion 13 by Mr. Fraser, seconded by Mr. D. Landry to propose the following resolution on Thursday, November 28, 2013:

WHEREAS, in 2008, the then Department of Transportation—DOT—implemented a new Asset Management Business Framework to better manage the long-term investment requirements of the province's aging highway infrastructure; and

WHEREAS the Asset Management Business Framework—AMBF—was implemented to make the most efficient use of highway capital repair dollars and take the politics out of paving; and

WHEREAS the Auditor General observed that, in the first three years after adopting the Asset Management Business Framework with optimal funding in place, the department noted positive results; and

WHEREAS the Auditor General has noted that the asset management methodology is sound; and

WHEREAS the Auditor General has concluded that, although the department has the appropriate tools in place to identify and prioritize required highway maintenance projects, current funding levels do not allow for completion of an appropriate level of highway maintenance on a timely basis; and

WHEREAS the Auditor General has expressed concern that this will result in deferring required maintenance to future periods at a greater overall cost to the province; and

WHEREAS it is reported in the Auditor General's report that 40% of capital maintenance projects chosen for completion are not recommended through the asset management capital planning process, and it was suggested that some of these are chosen for political reasons;

BE IT THEREFORE RESOLVED that the Legislature urge the government to return to the principles of asset management that have been implemented since 2008 to restore optimum long-term value to New Brunswick highway capital repairs.

Motion 14 by Mr. Arseneault, seconded by Mr. Haché to propose the following resolution on Thursday, November 28, 2013:

WHEREAS the improper housing of exotic animals can result in serious public safety, animal welfare and environmental issues;

WHEREAS the housing of exotic animals is a highly specialized undertaking;

WHEREAS the problem with the current legislative and regulatory environment may result in the proliferation of unaccredited roadside zoos with attendant animal welfare, public safety and environmental concerns as well as the exploitation of exotic animals for profit;

WHEREAS accredited zoos and aquariums can bring significant economic, education and conservation benefits to their communities;

WHEREAS Canada's Accredited Zoos and Aquariums (CAZA) wants to create a more uniform and adequately resourced policy, legislative, regulatory and enforcement regime governing exotic animals in the Atlantic provinces and in all other provinces and territories;

WHEREAS the Cities of New Brunswick Association passed a motion urging the government of New Brunswick to work with the other Atlantic provinces to create a joint task force to study the issue and report to the Council of the Federation with a recommended way forward;

BE IT THEREFORE RESOLVED that the Legislative Assembly urges the Alward Government to conduct a complete review of the provisions of the *Fish and Wildlife Act* and other relevant legislation related to exotic animals and bring forward a detailed action plan to the Legislature including any recommended changes to the legislative and regulatory framework, prior to the closing of the current legislative session.

Motion 15 by Mr. Collins, seconded by Mr. Melanson to propose the following resolution on Thursday, November 28, 2013:

WHEREAS the third and final phase of the Petitcodiac River Restoration Project involves the construction of a bridge, to replace the causeway structure, that was due to open in 2013;

BE IT THEREFORE RESOLVED that the Legislative Assembly of New Brunswick urge the provincial government to move forward with its application for federal funding for the third and final phase of the Petitcodiac River Restoration Project to allow for the project's completion.

Motion 16 by Mr. Arseneault, seconded by Mr. Collins to propose the following resolution on Thursday, December 5, 2013:

WHEREAS according to the report *Modelling New Brunswick's Future Health Care Expenses and Resource Needs*, conducted by the Canadian Institute of Actuaries in conjunction with the New Brunswick Health Council, the health budget will increase by \$1 billion by year 2020; and

WHEREAS according to the aforementioned, smoking represents one of the three main and biggest factors influencing health care costs; and

WHEREAS Canadian Institute for Health Information statistics indicate that New Brunswick exceeds the Canadian average in smoking rates; and

WHEREAS New Brunswick's Wellness Strategy Action Plan only references smoking once, and only in relation to the workplace; and

WHEREAS smoking reduction with a focus on youth, should be a priority for every government;
